POP VOX

This packet contains messages from your constituents.

These individuals weighed in at **POPVOX.com**, a nonpartisan platform for advocacy. Comments are public, searchable, and sortable by state and district.

POPVOX is committed to helping constituents write messages that are *in a format easy for you to process*.

For instance, all comments are clearly labeled as support or opposition to a particular bill. We're trying to do this *the right way.* Tell us how to make your job easier.

We were unable to deliver these messages to you electronically. What should we do?

If your webform uses a CAPTCHA, requires Javascript, or has unusual fields, we're unable to submit constituent letters through your webform. Occasionally we also have mail for you in a ZIP+4 that is rejected by your webform.

We're happy to work out an alternative to a printout. Some offices ask for a **spreadsheet** they can upload into their CRM software. We can also do direct-to-CRM email.

For details, contact congress@popvox.com.
