POP VOX

This packet contains messages from your constituents.

These individuals weighed in at **POPVOX.com**, a nonpartisan platform for advocacy. Comments are public, searchable, and sortable by district at popvox.com/congress.

We were unable to deliver these messages to you electronically.

Your webform currently prevents the reliable submission of constituent messages from third parties.

Make your life easier by accepting "XML email," fixing your webform, or downloading a spreadsheet from popvox.com/congress. For details, contact our CTO Josh Tauberer at congress@popvox.com.

Or tell us how we can help you!

POPVOX is committed to helping constituents write messages that are *in a format easy for you to process*.

For instance, all comments are clearly labeled as support or opposition to a particular bill.

POPVOX is also a tool for staff where you can find:

- support/opposition analysis on bills
- constituent comments
- advocacy group positions
- bill status & tracking
